

LOS ANGELES COUNTY REGIONAL PARK AND OPEN SPACE DISTRICT

June 20, 2006

The Honorable Board of Directors
Los Angeles County
Regional Park and Open Space District
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Directors:

APPROVE 2006 ANNUAL PLAN OF REVENUES AND EXPENDITURES AND ALLOCATE EXCESS FUNDS (ALL DISTRICTS - 3 VOTE ITEM)

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve the 2006 Plan of Revenues and Expenditures, which identifies \$15,408,000 available excess funds for allocation in Fiscal Year 2006-07 as shown in Attachment I.
2. Re-allocate prior year excess funds as shown in Attachment II.
3. Authorize the Director of Parks and Recreation to award grants as identified in Attachment III.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of the recommended actions will adopt the Los Angeles County Regional Park and Open Space District (the District) 2006 Plan of Revenues and Expenditures, as required by the Safe Neighborhood Parks Proposition of 1996 (1996 Proposition), and make an additional \$15,408,000 of excess funds available for additional capital outlay projects in Fiscal Year 2006-07.

Honorable Board of Directors
June 20, 2006
Page 2

Section (21), Subsection (j) of the 1996 Proposition requires that, following completion of an independent annual audit of the District, an annual Plan of Revenues and Expenditures (Plan) be prepared and approved by your Board prior to the end of the fiscal year. The 1996 Proposition identifies two purposes for the Plan. First, the Plan must demonstrate that the District is managing its revenues and issuing debt in a manner that ensures sufficient funds will be available to finance the \$859,000,000 of capital outlay project expenditures identified in the Safe Neighborhood Parks Propositions of 1992 and 1996 (the 1992 and 1996 Propositions) by the end of Fiscal Year 2008-09. Second, the annual Plan must identify to your Board any available excess funds and designate the amount of such excess which, according to a formula prescribed by the 1996 Proposition and a recommendation by an independent financial consultant, may be allocated for additional projects.

2006 Plan of Revenues and Expenditures

The attached Plan of Revenues and Expenditures (Attachment I) is a forecast of the financial activities of the District through Fiscal Year 2023-24. This Plan demonstrates that sufficient funds will be available to finance the capital outlay project expenditures identified in the 1992 and 1996 Propositions by the end of Fiscal Year 2008-09. The Plan also identifies the amount of available excess funds that may be allocated for additional projects in Fiscal Year 2006-07. In addition, excess funds identified in the Plans of Revenues and Expenditures from years 1999 through 2005 that have not been committed to expenditure also are available for allocation or reallocation in Fiscal Year 2006-07. Allocation of those funds pursuant to Subsection (b) of Section (24) of the 1996 Proposition will enable the District to ensure that excess funds are available for expenditure by Board action in the coming year.

The Plan reflects actual revenues and expenditures for Fiscal Years 1993-94 through 2004-05, estimated actual revenues and expenditures for 2005-06, and projections for Fiscal Years 2006-07 through 2023-24. The projections for future years are based on a number of assumptions discussed in detail in the Plan, such as:

- anticipated growth of assessment revenues;
- projected future interest rates and their effects on District investment earnings; and
- anticipated capital outlay project expenditures.

Honorable Board of Directors
June 20, 2006
Page 3

Allocation of Excess Funds

Based on current projections of both revenues and expenditures, the independent financial consultant has determined that new excess funds in the amount of \$15,408,000 will be available for additional capital outlay projects in Fiscal Year 2006-07.

Funds determined to be excess in the 1999 through 2005 Plans of Revenue and Expenditures (Table 2 of Attachment I) are required to be allocated or reallocated in each fiscal year until they are encumbered under Project Agreements.

Portions of the available funds have been allocated for projects in several actions by your Board during this fiscal year, including allocations to cities in the total amount of \$2,818,000. Section (24), Subsection (b) of the 1996 Proposition requires that the County be granted an amount equal to the total amount granted to cities in each fiscal year. Approval of the grants to the County as identified in Attachment III will enable the District to comply with the requirement of the 1996 Proposition.

Of the total of \$77,164,160 that has been determined to be excess in prior years, a total of \$36,684,786 is allocated to specified projects of which \$34,650,785 is encumbered in grant Project Agreements as of April 30, 2006, (Attachment IV). The remaining allocated but unencumbered funds of \$2,034,001 will be committed and encumbered by June 30, 2006. All prior years excess funds of \$40,479,374 still available for allocation in the current fiscal year (including County match for all grants to cities in Attachment III) are recommended for allocation as shown in Attachment II.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The proposed recommendations further the Board approved County Strategic Plan Goal No. 1 (Service Excellence) and Goal No. 4 (Fiscal Responsibility) by approving an annual Plan of Revenues and Expenditures and by allocating funds available for additional capital outlay projects.

Honorable Board of Directors
June 20, 2006
Page 4

FISCAL IMPACT/FINANCING

The District's Plan of Revenues and Expenditures has no impact on the County General Fund. All expenditures of the District will be offset by District revenues through assessments. Funds for new excess funds available for allocation in Fiscal Year 2006-07 will be coming from the Assessment Grant Funds of the District. Upon Board approval of this action, the Department of Parks and Recreation and Chief Administrative Office will recommend the allocation of the Excess Funds be included in the supplemental resolution to the District's 2006-07 Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Section (21) subsections (i) and (j) of the 1996 Proposition established financial reporting requirements for the District. The District is required to have an independent auditing firm provide an annual audit of District finances as of the end of each fiscal year. The report of that audit is required to be issued by the following January 1 and becomes the basis of the annual Plan of Revenues and Expenditures to be prepared by the District in consultation with an independent financial consultant.

The Plan is required to cover the entire period of the District assessment, which was first levied in Fiscal Year 1993-94 and was extended by the 1996 Proposition through Fiscal Year 2018-19. An additional five years, in which delinquent assessment revenues and grant administration expenditures are anticipated, has also been included. The Plan includes actual revenues and expenditures for past years and forecasts of revenues and expenditures for future years. The Plan is required to demonstrate that sufficient funds will be available to finance all capital outlay projects specified in both the 1992 and 1996 Propositions by the end of Fiscal Year 2008-09.

If the Plan shows that the District has excess funds as determined by a formula in Section (24) Subsection (a) of the 1996 Proposition, the independent financial consultant is required to determine what portion may be made available in the following year without impairing the District's ability to finance all capital outlay projects specified in the Propositions by the end of Fiscal Year 2008-09, and meet its debt obligations. When such excess funds are determined to be available, they are to be identified in the Plan. Up to 80 percent of such funds may be recommended for Board allocation to additional projects in accordance with Section (24).

Honorable Board of Directors
June 20, 2006
Page 5

CONTRACTING PROCESS

As required by the 1996 Proposition, the District prepared the attached Plan with the assistance of an independent financial consultant, the Public Resources Advisory Group (PRAG).

The County of Los Angeles, Treasurer and Tax Collector, Office of Public Finance, obtained Board approval on June 17, 2003, and subsequently on July 1, 2003, to enter into a Master Agreement for financial advisory services with three firms selected through a Request for Proposals process. One of these firms, PRAG, had previously advised the District regarding its bonding capacity for additional capital improvement projects and was retained for consultation on the 2000 through 2005 Plans of Revenues and Expenditures. Based on past experience, PRAG was retained again under the Treasurer and Tax Collector's Master Agreement for consultation on the 2006 plan.

IMPACT ON CURRENT SERVICES

The attached Plan has no impact on current services nor does it authorize specific expenditures. It is merely a forecast of annual District financial activities through the anticipated life of the District.

ENVIRONMENTAL DOCUMENTATION

The proposed action is not subject to the California Environmental Quality Act (CEQA) in that the action does not meet the definition of a project according to Section 15378 (b)(5) because the action is an administrative activity of government that will not result in direct or indirect physical changes in the environment.

Honorable Board of Directors
June 20, 2006
Page 6

CONCLUSION

Your Board's approval of the attached Plan of Revenues and Expenditures prior to the end of the current fiscal year will meet the requirements of the 1996 Proposition.

Please instruct the Executive Officer-Clerk of the Board to return one conformed copy of this action to the Chief Administrative Office, Capital Projects Division, and to the Department of Parks and Recreation.

Respectfully submitted,

Russ Guiney
Director of Parks and Recreation

PART 1

Report on the Revenue and Expenditure Forecast

I. THE SAFE NEIGHBORHOOD PARKS ACTS - THE 1992 PROPOSITION A AND THE 1996 PROPOSITION A

A. THE 1992 PROPOSITION A

The District was formed and annual assessments are levied pursuant to the California Public Resources Code and the Landscaping and Lighting Act of 1972. On November 3, 1992, the District was established when voters approved the Safe Neighborhood Parks Proposition of 1992 (“1992 Proposition”). The District was established for the preservation of beaches, parks and wetlands; the construction, renovation and improvement of new and existing recreational facilities; and the restoration of rivers, streams and trails in the County. The District’s boundaries are coterminous with those of the County, encompassing 4,083 square miles and containing more than 2.2 million parcels. The District is governed by the County of Los Angeles Board of Supervisors with the District’s day-to-day operations administered by the County Department of Parks and Recreation. The 1992 Proposition “capped” the assessment at \$9.39 per benefit point per year. The 1992 Proposition A assessment was first levied and collected by the District in Fiscal Year 1993-1994. The 1992 Proposition allows for assessment collections over a twenty-two year period with the final assessment scheduled for Fiscal Year 2014-2015.

B. THE 1996 PROPOSITION A

On November 6, 1996, voters approved an additional assessment with the passage of the Safe Neighborhood Parks Proposition of 1996 (the “1996 Proposition”). The additional assessment supplemented the existing assessment to fund comparable improvements to those adopted in the 1992 Proposition. However, the 1996 Proposition amended the 1992 assessment “to the extent and with the effect that the portion of any vacant parcel of land, and the vacant portion of any partially improved parcel of land, in excess of two and one-half acres (2.5) shall not be assessed.” To clarify any inconsistencies between the two Propositions, the 1996 Proposition further added that:

“It is the intent of this resolution that the method of assessment with respect to both the 1992 Assessment and the Additional Assessment be identical in all respects. Any such discrepancies, differences or variations in the method of assessment shall be resolved in favor of the Engineer’s Report with respect to the Additional Assessment.”

Finally, the 1996 Proposition “capped” the additional assessment at \$5.07 per benefit point per year. The 1996 Proposition assessment was first levied and collected by the District in Fiscal Year 1997-1998. The 1996 Proposition A allows for assessment collections over a twenty-two year period with the final assessment scheduled for Fiscal Year 2018-2019.

C. THE ASSESSMENT / PLEDGED REVENUES

The District's budget and accounting systems have been structured in accordance with the revenue flow and accounting requirements provided by the Propositions. The District's primary revenue source is the assessments that are levied annually on each of the approximately 2.2 million parcels within the District (except for uninhabited agricultural lands, cemeteries, utilities and other exempt parcels). Assessment revenues and interest earnings are distributed in the following manner: a minimum of 80% (but not more than 85%) of the assessments will be used for the payment of debt service on bonds, notes and other obligations issued by the District and for the direct, capitalized costs incurred on approved Projects; 15% of the assessments will be used for the maintenance and servicing of completed Projects; and up to 5% of the assessments will be used to pay for the District's ongoing administrative expenses.

D. RATE AND METHOD OF ASSESSMENT/BENEFIT POINTS

The rate and method of apportionment for use in levying annual assessments for various categories of property area as set forth in the Engineer's Report for County of Los Angeles Landscaping and Lighting District No. 92-1, which was adopted by the Board of Supervisors on March 17, 1992 and modified on June 18, 1996 to include the additional assessment. Pursuant to the Engineer's Report, the level of each assessment is based on the size and use of each parcel and the resulting benefit each parcel will receive from the proposed Projects. The estimation of such benefit is quantified in benefit points. Pursuant to the Proposition, the annual rate of each assessment may not exceed \$9.39 per benefit point for the 1992 Proposition and \$5.07 per benefit point for 1996 Proposition. The annual assessment for any parcel will consequently equal the annual rate determined by the Board of Supervisors multiplied by the number of benefit points applicable to each parcel. For purposes of this report, it is assumed that assessments will be levied at the maximum allowable annual rates.

The overall level of the District's assessments will increase as parcels are subdivided and vacant property is developed. Properties owned by public agencies, such as cities, the County, the state or the federal government, would not be assessed except when such property is not devoted to public use. Rights-of-way owned by utilities, railroad operating rights-of-way, uninhabited agricultural lands, cemeteries and certain other properties are also exempt from the assessments. Individuals who qualify for the California Property Tax Postponement Program, which generally provides for the postponement of certain payments by individuals 62 years of age or older of property taxes attributable to residential dwellings, may also qualify for postponement of payment of assessments levied by the District. In the event of any allegation of errors of assessment, including circumstances that do not precisely fit the intent of the Propositions, such alleged errors will be reported to a committee appointed by the County Board of Supervisors. The function and authority of this committee will be to recommend corrections or adjustments that are consistent with the concept, intent and parameters of the Propositions and the District's program of levying and collecting the assessments. Unless the proposed corrections and adjustments of the committee are appealed to the County Board of Supervisors, they will be incorporated into the assessment roll.

II. EXISTING BENEFIT POINTS INVENTORY

The most accurate way to prepare a projection of assessment revenues is to first prepare a projection of benefit points within the District. The first step in this process was to determine the current inventory of benefit points.

The benefit point inventory provided by the Auditor-Controller is summarized by assessor use code in Appendix A. There are approximately 702 assessor use codes applicable to property in the District. For purposes of the revenue forecast, the assessor use codes for regular parcels are grouped into six major categories: developed residential, developed non-residential, undeveloped residential, undeveloped non-residential, recreational, and institutional land uses.

The information provided by the Auditor-Controller for the tax roll in Fiscal Year 2005-2006 indicates that the cumulative benefit points total 5,420,339 and consist of 3,710,126 from developed residential (including mobile homes), 1,247,522 from developed non-residential (including recreational, institutional, possessory interest and "lift" parcels), 160,527 from undeveloped residential, and 302,164 from undeveloped non-residential benefit points.

The Auditor-Controller does not enroll any assessments for parcels that are less than \$0.17, or have missing information and/or any other parameter used in calculating benefit points (these parcels are separately identified by the Auditor-Controller in a Parcel Exception Report). The District staff investigated the nature of the parcels and from historical experience determined that most of the exceptions fall into one of three major categories: 1) incorrect, missing or unknown use codes 2) missing land acreage, or 3) missing square footage. Other minor categories are 1) the parcel is part of a common area, or 2) the parcel is considered a sliver parcel. These two types of parcels are not considered billable. Some District parcels that do not have acreage information from the Department of Public Works have not been assessed. These parcels have been reduced considerably due to aggressive efforts of District staff to procure the missing information. The District has contracted with the Assessors Department to reduce the number of parcels in the exception report. As District staff perform research, analysis and site inspections, parcel information from the Exception Report is corrected. Often the correction results in benefit point increases.

III. PROJECTION OF BENEFIT POINT GROWTH AND ASSUMPTIONS

A. BASE BENEFIT POINTS INVENTORY

The existing inventory of 5,420,339 benefit points is used in the projections of future growth, for purposes of calculating projected assessment revenues. Total assessment revenues were derived by multiplying the assessment rates times the benefit point projection.

B. BENEFIT POINT GROWTH ASSUMPTIONS

For 2006 Plan of Revenues and Expenditures, the District is assuming future benefit point growth will continue at its historical growth rates. The future Benefit Point growth rate is based on the average annual historic growth of the aggregate Residential and Non-Residential Benefit Points categories starting from Fiscal Year 1996-1997 through Fiscal Year 2005-2006. Using such methodology, the assumed benefit point growth rate is 0.32% per year for residential and -0.19% for commercial/industrial properties.

C. ASSESSMENT REVENUE ASSUMPTIONS

Based on information provided by the County of Los Angeles Auditor-Controller, the District adjusted the assessment assumptions to account for appeals, parcel enrollment losses, delinquencies, and County collection/administrative fees. These assumptions are summarized below:

1. Appeals Rate. The proposition allows for adjustments to assessments based on inaccurate acreage, inaccurate assessor use codes, conservancy properties, etc. Based on actual appeals data for Fiscal Year 2004-05, the appeals rate was equal to 0.2106% of the gross assessment levy and this rate is applied for each subsequent year. Note that the appeals are processed separately by the Auditor-Controller. Once the basic program calculating benefit points is run, the Auditor-Controller runs an “override” program to account for those parcels whose benefit point calculations must deviate from the “normal” methodology. Assessment appeals are also included in the overrides.
2. Parcel Enrollment Losses. The report adjusted the assessment assumptions to account for losses which occur between the Auditor-Controller’s submittal of direct assessments to the County and the reconciliation of parcels which were actually enrolled on the secured tax roll. Based on the existing Auditor-Controller program calculation of benefit points and the actual amounts enrolled for Fiscal Year 2005-06, a revenue loss of 0.0012% was estimated. Note that these losses often are caused by changes in the characterization of properties including possessory interest parcels, government-owned properties, properties with *de minimis* assessed values, etc.

3. Delinquency Assumptions. For purposes of this report, the Fiscal Year 2004–05 delinquency rate of 3.036% has been used based on the 4th Paid Apportionment Ledger for direct assessment fund number 036.92, the tax collection account number designed to track assessment collections. The report has included in the revenue projections the standard ten percent redemption penalty fee as well as an average annual delinquency interest rate of nine percent. The report has used the County's existing assumptions regarding delinquency recovery rates of 91% over 5 years based on a "sliding scale" of 45% recovery for Year 1, 22% for Year 2, 11% for Year 3, 9% for Year 4, and 4% for Year 5. The actual County delinquency interest rate is 1.5% per month (or 18% annualized). However, the 9% delinquency interest rate assumption is premised on straight-line collections through the fiscal year. Thus, delinquency interest rates are 9% for collections of past due assessments of the first year, 18% for the second year, 27% for the third year, 36% for the fourth year and 45% for the fifth year. Note that the report has not made any adjustments in revenue projections for the Property Tax Postponement Program, the 5-Year Payment Plan, or for any revenues generated by County foreclosure actions. The result of these conservative assumptions was to assure that the report's cash flow projection was non-speculative in nature.
4. Auditor-Controller Collection and Administrative Fees. The Auditor-Controller charges the District a base-programming fee of \$112,500 per year. This programming fee funds the calculation of benefit points for the entire secured roll, as well as the production of the Direct Assessment Exception Reports mentioned previously. Note that the Auditor-Controller imposes a \$0.20 per parcel fee for the levy and collection of direct assessments on the secured tax roll. All of these administration costs are borne entirely by the administration account.

D. INTEREST REVENUE ASSUMPTIONS

District funds earn interest at the rates paid on the County of Los Angeles Treasurer's Pooled Investments. Revenue from interest on District funds is projected for future years by applying current interest rates to projected fund balances. Using historically low current interest rates, the cumulative total Excess Funds through FY 2023-24 (see Table 2) is \$356,752,000. This amount is approximately \$36 million less than the cumulative total Excess Funds projected in the 2005 Plan of Revenues and Expenditures. As discussed under Section V of this report, the assessment revenues fund, used as principal in calculating interest earnings for excess funds purposes, is decreasing at a faster rate than in previous years. The District expended all remaining bond proceeds in year 2004 and projects, as a result, have been solely funded by assessment revenues since 2005.

IV. PROJECT COSTS AND PHASING ASSUMPTIONS

The update to the expenditure program consisted of three separate steps. The first step was to update the program with actual expenditures for prior years. The second step consisted of updating the expenditure program with estimated actual expenditures for the current fiscal year. And the third step involved projecting the remaining expenditures for the life of the program.

In order to project the remaining expenditures time frames, the District in year 2000 designed a survey form to collect information on the timing of when monies would be needed by the agencies. It requested certain identifiers of each project, such as grant number (if one has been issued), start date of construction, expected completion date of construction, description of project, and anticipated timing request for reimbursement from the County. Beginning 2001 and forward, the data was updated by applying information received from the agencies, such as extension of grant expiration dates and anticipated requests for reimbursements.

Table 1 below shows historical actual expenditures thru Fiscal Year 2004-05, estimated actual for 2005-06 and forecasted future expenditures.

Table 1
Actual and Projected Expenditures from 1993-94 to 2008-09 (in \$1000)

Description	Actual							
	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99	1999-00	2000-01
Bond Financed Improvements	17,210	35,686	52,052	58,080	56,766	56,453	66,959	75,179
Pay As You Go Improvements	28,081	11,622	11,655	23,489	6,850	10,675	3,449	7,877
Total Project Funding	45,291	47,308	63,707	81,569	63,616	67,128	70,408	83,056
Cumulative Project Funding	45,291	92,599	156,306	237,875	301,491	368,619	439,027	522,083

Description	Actual				Estimated Actual	Estimate		
	2001-02	2002-03	2003-04	2004-05		2006-07	2007-08	2008-09
Bond Financed Improvements	57,994	40,344	36,198	758	-	-	-	-
Pay As You Go Improvements	1,018	3,354	1,840	30,067	50,240	47,455	39,114	28,534
Total Project Funding	59,012	43,698	38,038	30,825	50,240	47,455	39,114	28,534
Cumulative Project Funding	581,095	624,794	662,832	693,656	743,897	791,352	830,466	859,000

The table above illustrates that through a combination of existing bond proceeds, shown as phased out in Fiscal Year 2004-05, and pay-as-you-go financing, the total project needs of \$859,000,000 in improvements can be fully satisfied by Fiscal Year 2008-09, as required in the Propositions.

V. EXCESS FUNDS

As the capital funding requirements are satisfied, allocations for grants in furtherance of the purposes of the Propositions can be made from “excess” revenues¹. Under the 1996 Proposition, the County’s independent Financial Consultant shall annually determine what portion of the excess revenues from the prior year can be made available for other projects in the next fiscal year without impairing the District’s ability to finance all of its planned capital outlay projects or its ability to issue or repay bonds, notes or indebtedness. According to the 1996 Proposition, 80% of the “available excess” shall be made available to the Board for its use on other projects.

The 1996 Proposition, in subsection (j) of Section 21, requires that the District consult with an independent Financial Consultant in preparation of each year’s Plan of Revenues and Expenditures. For the 1997 baseline Plan of Revenues and Expenditures, a consulting team was retained by means of a Board-authorized solicitation of proposals, and the same team was employed for the preparation of the 1998 and 1999 Plans. The District engaged the services of Public Resources Advisory Group (“PRAG”) to serve as independent Financial Consultant for the years 2000 through 2005. This year, the District’s consulting services were also provided by the same group through a contract with the County of Los Angeles Treasurer and Tax Collector.

The 1996 Proposition, in subsection (a) of Section 24, also requires the independent Financial Consultant to determine what amount of the excess funds, if any, from the prior year’s audited financial statements may be made available in the next fiscal year without impairing the District’s ability to finance by June 30, 2009 all \$859,000,000 in capital outlay projects required by the 1992 and 1996 Propositions, and without impairing the District’s ability to service its debt. That amount called “Available Excess” is required to be recommended by the independent Financial Consultant each year for use by the District in preparing the annual Plan of Revenue and Expenditures.

For Plan Year 2006, the Financial Consultant, PRAG, has determined that additional excess funds amounting to \$15,408,000 are available. Although interest rates have been increasing slightly, expenditures have been solely paid out of the assessment fund since 2005, therefore the principal upon which interest is calculated has been decreasing. Nevertheless, the actual amount determined to be excess this year is much more than last year’s projection for this year of \$4,592,000. This was again due to the slower than anticipated request for reimbursements from agencies awarded Proposition A funds.

¹“Excess” is defined in Section 24(a) of the 1996 Proposition as the excess of (1) assessment revenues collected pursuant to this resolution and the 1992 Order plus investment earnings thereon, and any other revenues of the District (excluding bond proceeds or any other evidences of indebtedness, but including collections of delinquent assessments and interest and penalties thereon), all cumulative to the date of the independent audit, over (2) amounts expended for capital outlay (excluding capital outlay funded with bond proceeds or other borrowed funds), and amounts expended, or allocated for maintenance and servicing, administrative costs and debt-service, all cumulative to the date of the independent audit.

Table 2 below depicts past allocations and projected allocations of the “available excess” for grants, assuming that District expenditures in future years are as projected. If District expenditures lag behind projections, as they have consistently in the past, then additional allocations of excess funds will be recommended next fiscal year. Interest earnings on the excess funds are not shown separately in this table. They revert to the assessment grant fund and form part of the base in the determination of available excess for the following year.

Table 2
Excess Funds Deposits (x \$1000)

Fiscal Year	Excess Funds Determined	Total
1999-00	8,000	8,000
2000-01	21,149	29,149
2001-02	11,231	40,380
2002-03	4,096	44,476
2003-04	-	44,476
2004-05	9,718	54,194
2005-06	22,970	77,164
Projected Excess Funds		
2006-07	15,408	92,572
2007-08	3,091	95,663
